CARE AND CLEANING

- To maintain the beauty of the finish, avoid placing the furniture in direct sunlight, as sunlight causes fading. Also avoid extreme changes in temperature by arranging furniture away from radiators, heat and air vents, and air conditioning units. Avoid placing furniture directly under windows. Damage caused by any of the afore mentioned will void the warranty.
- Clean the furniture frequently with a clean, soft, dry, lint-free cloth. Clean the surface by gently rubbing in the direction of the grain. Avoid using silicone cleaners and waxes.
- Clean up excess water and spills immediately. Use blotting rather than a wiping action. Water left over a long period of time will cause white spots in the finish and the furniture to possibly warp. Please note that some chemicals may damage the finish. Standing water and the use of strong chemicals will void the warranty.
